DEPARTMENT OF BIOMEDICAL ENGINEERING
SCHEDULE OF CLASSES
Spring 2012 (November 18, 2011)

	Monday		Tuesday					Wednesday			Thursday					Friday
9:00																
9:10	BMEN E4002 Quant. Phys. II, B Morrison		BMEN E3920 BME Design II, A. Kyle & E Hillman		BMEN E3320 Fluid Biomechanics, H Huang	BMCH E3500 Biological Transport and Rate Processes, G. Vunjak-Novakovic		BMEN E4002 Quant. Phys. II, B Morrison			BMEN E3920 BME Design II, A. Kyle & E Hillman	BMEN E3320 Fluid Biomechanics, H Huang		BMCH E3500 Biological Transport and Rate Processes, G. Vunjak-Novakovic		
9:20																
9:30																
9:40																
9:50																
10:00																
10:10																
10:25																
10:35					BIOL C2006 Molecular and Cellular Biology II, D Mowshowitz							BIOL C2006 Molecular and Cellular Biology II, D Mowshowitz				
10:40																
10:50																
11:00		BMEN E4502 Tissue Eng II, TBA							BMEN E4502 Tissue Eng II, TBA							BMEN E9700 Grad Smnr, L Hillman
11:10																
11:20																
11:30																
11:40																
11:50																
12:00																
12:15																
12:20																
12:30																
12:40																
12:50																
1:00								BMEN E3820 Lab II, Section 1, A. Kyle			BMEN E3820 Lab II, Section 2, A. Kyle					
1:10			BMEN E8001 Current topics in nanobiotechnology and synthetic biology, H. Hess	BMEN E4420 Biomedical Signal Processing and Signal Modeling, P Sajda (not offered)	BMCH E4810 Artifical Organs, E Leonard	BMEN E4000 Special Topics: Imaging Informatics Biology and Medicine, A Laine	BMEN E4300 Solid Biomechanics, C Jacobs					BMEN E4300 Solid Biomechanics, C Jacobs	BMCH E4810 Artifical Organs, E Leonard			
1:20																
1:30																
1:40																
1:50																
2:00																
2:10																
2:15																
2:25																
2:40									BMEN 4010 Ethics for Biomedical Engineering, John Loike							
2:50																
3:00																
3:10																
3:20																
3:30																
3:40																
3:50																
3:55																
4:00																
4:10	BMEN E6420 Advanced Microscopy: Fundamentals and Applications, E. Hillman [Not offered 2011-12]	BMEN E 4750, Sound and Hearing, E. Olson	BMEN E4410 Ultrasound in Diagnostic Imaging, E. Konofagou	BMEN E4400 Wavelet applications in biomedical image and signal processing, A Laine (Not offered 2011-12)	CBMF W4761 Computational Genomics, C. Leslie	BMEN E6301 Modeling Biol Tiss w / FEM, C Jacobs (Not offered 2011-2012)	BMEN E4540 Bioelectrochemistry, A Pilla	BMEN E4898 Biophotonics, H.K. Kim,	BMEN E4550 Micro and Nanoscale structures in cellular engineering,, L. Kam	EEBM 6099 Brain/computer interfaces, P. Sajda [NOT OFFERED 2011-12]	CBMF W4761 Computational Genomics, C. Leslie	BMEE E6030 Comput Neural Mdlg & Neuroeng, P Sajda (not offered	MEBM E6311 Mixture Theories for Biological Tissues II, G Ateshian (Not offered 2011-2012)	BMEN E4590 BioMems: Cellular and Molecular Applications, S Sia	BMEN E4601 Cellular Biophysics, O. Elizabeth [Not offered 2011-2012]	
4:20																
4:30																
4:40																
4:50																
5:00																
5:10																
5:20																
5:30																
5:40					BMEN E3150 Cell as a Machine Sheetz [Not offered 2011-2012]						BMEN E3150 Cell as a Machine Sheetz [Not offered 2011-2012]					
5:50																
6:00																
6:10																
6:20																
6:30																
6:40																
6:50			EEBM E9070 Massively Parallel Neural Computation									BMEN E4440, Physiological Control Systems, N Chbat				
7:00																
7:10																
7:20																
7:30																
7:40																
7:50																
8:00																
8:10																
8:20																
8:30																
8:40																
8:50																
9:00																
9:10																
9:20																

Undergraduate Required
Cell and Tissue Track
Biomechanics Track
Biomedical Imaging Track
Graduate Required
Electives
Non BME Controlled
