Biomedical Engineering (BME) at the University of Delaware invites applications for a full time non-tenure track Assistant Professor of Instruction faculty position. Responsibilities will include teaching and curriculum development related to all aspects of the undergraduate biomedical engineering program; for example, teaching engineering fundamentals and design courses, mentoring undergraduate students, and contributing to undergraduate curriculum discussions.

Successful applicants will join us in transforming the new Biomedical Engineering program into a prominent biomedical engineering department. The University of Delaware combines a rich legacy in engineering with a commitment to undergraduate education and scholarly excellence, and offers extensive core facilities and high impact biomedical initiatives. In the UD BME undergraduate program, we seek to deliver a high quality of education in applying quantitative engineering analysis and design to biology and medicine, preparing graduates for employment in biomedical engineering and related professions, and for entry into advanced studies, including medical school, graduate school, and other professional programs. Curricular details can be found at http://www.bme.udel.edu.

Qualifications
Applicants should hold a Ph.D. in biomedical engineering or closely related field. Successful candidates are expected to have demonstrated excellence in teaching and curricular development in engineering, with particular interest in biomechanics, instrumentation and design. Industrial experience in engineering design will be viewed favorably.

Application Instructions
Applicants should send a curriculum vitae, a statement of teaching interests and achievements, and a list of at least four references (http://apply.interfolio.com/28456). Full consideration is guaranteed for applications received before February 1st, 2015. However, the search will continue until the position is filled. For additional information about this position contact Dr. Jill Higginson (higginson@udel.edu or 302.831.6622).
